SUPPORT TOOLS

The school bears no financial costs and is not required to prepare educational content or materials. EVAAZ Academy provides the **scientific content**, **digital learning environment**, **educational resources**, **monitoring tools**, and **teacher qualification support** required to implement the program.

**A HIGH-VALUE PROGRAM
READY FOR IMMEDIATE IMPLEMENTATION —
WITHOUT IMPACTING THE SCHOOL'S BUDGET.**

Inclusive by Design — No Technical Background Required for Teachers

The Program Removes One of the Biggest Barriers for Schools:

The Shortage of Technical Staff

No Specialized
Technical
Background
Required

Step-by-Step
Qualification
for Any
Motivated
Teacher

The Platform
Handles
the Technical
Side

This pathway is designed to help schools enter the world of artificial intelligence **without requiring specialized technical staff.**

The program gradually equips teachers to become leaders, mentors, and supervisors of student AI projects, while the platform takes care of the technical components, learning content, and monitoring tools.

This makes implementation practical, accessible, and sustainable within the school.

Any Motivated Teacher Can Become an AI Program Leader.
